Re: Court Rule No. 2003-47

Supreme Court Clerk

I must write to challenge the right of the Michigan Constitution as well as the United States constitution the attempt to have judges make the law rather than interpret the law.

I am a victim of asbestos and have problems due to being exposed to asbestos for many years at Dow Chemical. For one example I cannot live in Michigan or any cold climate since I have suffered this condition. There are many other symptoms.

It appears that Michigan and the Michigan Supreme Court are being used as tools of the asbestos industry and big business to deny my rights as well as other working people their constitutional rights to jury trials when harmed by corporate misconduct.

I want to be counted as one voice in opposition to this constitutional and illegal and political motivated effort to deny me and others of my right to a trial by jury.

Sincerely

Emil Ziemer
